Skill:

Programming Languages

C/C++
Python
JAVA
HTML/CSS
Node
Arduino

Interpersonal Skills

Team Leadership
Punctuality
Decision Making
Effective Communication
Managing conflicts

Carrier Objective:

Obtain a responsible position in an organisation with the best capabilities, skills and knowledge.

Education:

B. Tech, CSE:

Katihar Engineering College, Katihar, Bihar | Sub: Computer Science and Engineering
Session: 2021-25 | CGPA: 7.24

12th ISC:

Vikas Bharti School, Gorakhpur, Uttar Pradesh | Session 2019-20 | Sub: Physics, Chemistry, Maths, Computer Science | Score: 82.6 %

10th ICSE:

Vikas Bharti School, Gorakhpur, Uttar Pradesh | Session 2017-18 | Sub: Science with Computer Application | Score: 86 %

Experience :

CoGrad

November 2025 – Working

Designed and delivered interactive workshops on robotics and IoT; mentored students in project-based learning; collaborated with faculty to integrate technology into curriculum. Also doing Teachers Training workshop, Remote Places.

Techvein Pvt. Ltd.

May 2023 – February 2024

Handled data management and system integration for ERP platforms using C++ and Java; troubleshoot technical issues and streamlined processes for collaborative school operations.

Data entry for Providing ERP(Enterprise Resource Planning) to their collaborative schools Using MS-Excel, (Some sort of Data entry and Data Mining using some Excel Formulae).

India Advocacy

March 2023 – April 2023

A platform working on automation writing code for Data Miner so that they could sort easily.

Aim of this company is take out all the information of unauthorised marketing and providing them an active GST no. (as a Data Miner)

Projects :

Autonomous Quadcopter and Airplane using ArduPilot Firmware

ArduPilot Flight Control Systems GPS Navigation Integrated flight control systems, GPS navigation, and sensor modules for waypoint-based missions. Configured autopilot parameters and conducted mission planning and testing for stable autonomous flight

Smart Health Monitoring System

System integrates sensors with a microcontroller to continuously track key physiological indicators such as heart rate, blood pressure, body temperature, and oxygen levels, while also enabling gesture-based communication through flex sensors.

Achievements and Activities:

Drone Making Challenge : Held in IIT Patna, Scored 1st position with certification.

IIT BHU Tech fest: Held in IIT BHU, Scored 3rd position in RC Plane competition with certification.
